Reasons for excisions:

Not Applicable

**Summary of reasons
for classification:**

The computer moving image file entitled *Little Cinderella Audition Tape young teen barely legal lolita sex blowjob skinny white girl suck* is classified as:

Objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years.

The publication is one of a number of computer moving image files that were submitted to the Office of Film and Literature Classification by the Commissioner of Police. The publication was submitted because of concerns that it might promote the exploitation of children or young persons for sexual purposes. After examining the publication the Classification Office is satisfied that this is not the case, despite the title of the publication suggesting otherwise.

The publication explicitly depicts consensual sexual activity between a man and a woman. Its intended purpose is likely to be for sexual arousal of an adult audience. There is a likelihood of injury to the public good if the publication is available to children and young persons, who do not have the experience or maturity to deal with explicit adult sexual behaviour.

An age restriction of 18 years will interfere with the freedom of expression as set out in s14 of the New Zealand Bill of Rights Act 1990. This limitation is demonstrably justified, however, given the publication's potential to negatively impact upon children and young persons. The classification is also a reasonable limitation on the freedom of expression that reflects the concern of a free and democratic society to limit the availability of sexually explicit publications to adults.
